

AIM OF THE COURSE

The course is divided into theoretical and practical parts, which will be carried out directly in the operating room. The small number of participants allows for an interactive approach. Participants will also partake in the surgical procedure. This personal learning experience will focus on the surgical techniques used in the implantation of penile prostheses.

With the non-conditioning contribution of:

Course venue:

Antonini Urology - Via Machiavelli, 47, Roma

Casa di Cura Quisisana - Via Gian Giacomo Porro, 5, Roma
