

RATIONALE

Prostate cancer (PCa) diagnosis is considered one of the modern frontiers in Urology. This is primarily due to several critical aspects, including the multifocality and clinical behavior of the tumor, the characteristics of patients at apparent clinical risk for developing cancer, and the appropriate use of modern technologies currently employed in PCa diagnosis. Multiparametric MRI interpretation plays a crucial role in this process, as do the methods used for prostate fusion biopsy. For these reasons, Focal Therapy should be viewed as the “next step” in treatment, owing to its limited invasiveness and safety profile.

The objective of this Masterclass is to prepare the next generation of Urologists to address the emerging minimally invasive techniques for the diagnosis and treatment of PCa. While these techniques are currently applicable only to selected patients, they are expected to be used more broadly for all patients with a pathological diagnosis of low- and intermediate-risk prostate cancer in the future.

FACULTY

ARINGHIERI GIACOMO
BARRET ERIC
BARTOLETTI RICCARDO
DAZZI FEDERICO
FICARRA VINCENZO
GIGANTI FRANCESCO
MAIOLINO GIUSEPPE
MALLOGGI SIMONE

MARTINEZ SALAMANCA J.I.
NERI EMANUELE
ORTORI SIMONA
PACINI MATTEO
POMARA GIORGIO
VOLTERRANI DUCCIO
ZUCCHI ALESSANDRO

IN COLLABORATION WITH **EAU** Endourology

SIU Società Italiana
di Urologia
dal 1908

JANUARY 29TH-30TH 2026

UROLOGY UNIT 1 AZIENDA OSPEDALIERO-UNIVERSITARIA PISANA

MASTERCLASS ON FUSION BIOPSY AND FOCAL THERAPY

CHAIRMAN:

PROF. R. BARTOLETTI
UNIVERSITY OF PISA

SCIENTIFIC COMMITTEE:

R. BARTOLETTI,
A. ZUCCHI,
E. NERI,
D. VOLTERRANI

COSTO DI ISCRIZIONE COMPRENSIVO DI CENA E PERNOTTO:

Euro 1.600,00

WITH THE NON-CONDITIONING CONTRIBUTION OF:

Alliance
Medical
Technologies

B. BRAUN
SHARING EXPERTISE

pharma
ricerca per il benessere

MEDICAL NOTE

Pierre Fabre
Pharma

TECNOCAMMA
ADVANCED SURGICAL PRODUCTS

VENUE: HOTEL SAN RANIERI - PISA

HANDS ON TRAINING: CISANELLO HOSPITAL, AZIENDA OSPEDALIERO-UNIVERSITARIA PISANA

REQUESTED ADVOCACY FROM THE ITALIAN SOCIETY OF UROLOGY (SIU)
AND EUROPEAN ASSOCIATION OF UROLOGY (EAU)

MASTERCLASS ON FUSION BIOPSY AND FOCAL THERAPY

2026, January 29th

13.00-14.00	Welcome and Registration – Lunch buffet
	Chairmen: <i>G. Pomara (Pisa), D. Volterrani (Pisa)</i>
14.00-14.30	Lecture: Inflammation and prostate disease: what a new? <i>R. Bartoletti (Pisa)</i>
14.30-15.00	Lecture: Raised PSA: interpretation, treatment and prostate cancer prevention <i>V. Ficarra (Messina)</i>
15.00-15.30	Lecture: Multiparametric MRI: when and how? Advantages and Limitations in PCa diagnosis. Tricks for an enhanced learning <i>G. Aringhieri (Pisa)</i>
15.30-16.00	Lecture: A.I. and PCa: Fusion biopsy, Instruments, Interpretation, practice <i>M. Pacini (Pisa)</i>
16.00-16.30	Lecture: The potential role of PET PSMA in the diagnosis of prostate cancer <i>D. Volterrani (Pisa)</i>
	Chairmen: <i>E. Neri (Pisa), S. Ortori (Pisa)</i>
16.30-17.00	Focal therapy in the modern era: state of art <i>E. Barret (Paris)</i>
17.00-17.30	MRI: from diagnostic assessment and targeted intervention to post-treatment follow-up of focal therapy <i>F. Giganti (London)</i>
17.30-18.00	Salvage therapy options for recurrence after Focal Therapy <i>J.I. Martinez-Salamanca (Madrid)</i>
18.00-18.30	RTCs and Registries on focal therapy: how to make focal therapy a standard of care <i>G. Maiolino (Madrid)</i>
18.30	Closing remarks <i>E. Neri (Pisa), R. Bartoletti (Pisa)</i>
20.30	Gala Dinner

2026, January 30th

	Teachers: <i>M. Pacini (Pisa), S. Malloggi (Pisa), F. Dazzi (Pisa)</i>
08.30-13.00	• Hands on fusion biopsy • Hands on focal therapy for prostate cancer
13.00-14.30	LUNCH BUFFET
14.30-16.00	• Hands on fusion biopsy • Hands on focal therapy for prostate cancer
16.00-16.15	ECM and closing of the Masterclass

JANUARY 29TH-30TH 2026

UROLOGY UNIT 1 AZIENDA OSPEDALIERO-UNIVERSITARIA PISANA
